

# **MICRONEL**

**GLOBAL ENGINEERS**

Airports • Automotive • Aviation • Electronics • Energy + Power  
Manufacturing • Marine • MRO • Oil & Gas • Plastics • R + D • Simulation • Space

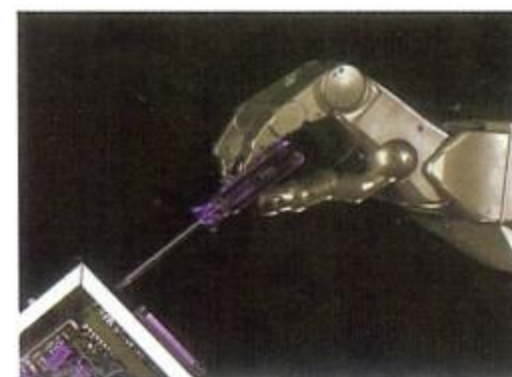

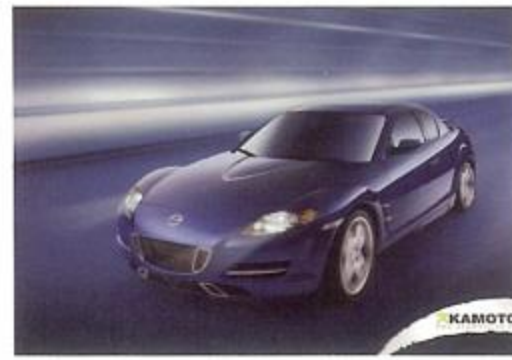

**Multi-tech services and worldwide business partnerships**  
**Hub of Excellence for latest Technologies & Applications**

## Introduction

Micronel Global Engineers was founded in India in 1986 to nurture talent, skills and innovation for executing complex and challenging projects using Scientific Knowledge and Engineering Expertise

## Business

- To design, sell and service technical products and engineering equipment of global importance
- Architecture and Design Integration of specialized Industrial Systems
- Modeling and Manufacturing of prototypes and production units
- Providing domain knowledge and product support in critical areas
- Consulting and Advisory Services for adapting Overseas Products and Technologies to local applications
- Outsourcing and setting up Joint Ventures
- Installation, commissioning and life cycle support of systems for key customers all over India
- Global bidding for Indian Projects together with International Associates on regular basis
- Distribution of imported equipment, materials, components and spares

## Products

Actuators  
Aircraft Control Mechanism  
Amplifiers  
Autoclaves  
Autopilot  
Batteries  
Bearings  
Biodegradable Resins  
Broaching Machines + Tools  
Bushes  
Cameras  
Castings  
CNC Machines  
Composites  
Control + Guidance Systems  
Couplings  
Data Acquisition Systems  
Engine Components  
Fasteners  
Fluid Power Systems  
Forgings  
Fuel Cells  
Furnaces  
Gas Turbine  
Generators  
Green Equipment  
Ground Handling Equipment  
Hydraulic Equipment  
Hydro-mechanical Equipment  
Inspection Equipment  
Instrumentation  
Insulating Material  
LED  
Machine Tools  
Measurement Devices  
Metals & Materials  
Mixers  
Motors  
Moulds  
Nuclear Energy Equipment  
Onboard Units  
PCB Assemblies  
Plastics  
Process Equipment  
Propulsion Equipment  
Pumps  
RFID  
Robotics  
Self Lubricated Bearings  
Servo Systems  
Simulators  
Software  
Solar Equipment  
Space Components  
Telemetry  
Test Equipment  
Test Rigs  
Thermal Devices  
Tooling  
TurboMachinery  
UAV  
Wind Turbine

## Strengths

- Team work and Strong Planning
- Meticulous Quality and tight execution
- 50 years of continuous experience in Engineering Projects
- Strong business processes and marketing knowledge
- Track record of success and prestigious reputation
- Highly educated, trained & skilled staff with Post Graduate & Doctorate degrees
- Systematic and transparent operations
- Business centres in India (Bangalore, Mumbai, Delhi, Trivandrum) UK, Germany and USA
- Promoted and managed by Sikka family

## Reach us at

34, Krishna Reddy Layout,  
Domlur, Bangalore 560071  
INDIA.  
Tel: +91 80 41605685 / 41669115  
Fax: +91 80 41605782
